PROFESSIONAL SUMMARY

Data Scientist with 4.5 years of industry experience fine-tuning LLMs, building NLP pipelines, and deploying predictive machine learning models in production.

TECHNICAL & SOFT SKILLS

Technical: Python, PyTorch, Scikit-learn, LLMs, NLP, Pandas, NumPy, SQL, Feature Engineering, Docker, MLOps.
Soft: Scientific curiosity, Data storytelling, Stakeholder communication.

PROFESSIONAL EXPERIENCE

Data Scientist | Insight Analytics (2022 - Present)
- Fine-tuned transformer models (Llama, BERT) using PyTorch for enterprise NLP.
- Built real-time inference endpoints deployed on AWS ECS with Docker.

Junior Data Scientist | DataCorp (2020 - 2022)
- Engineered features and trained scikit-learn models for customer retention.

EDUCATION

M.S. in Data Science - UC Berkeley (2018 - 2020) | B.S. in Statistics - UCLA (2014 - 2018)

CERTIFICATIONS & ACHIEVEMENTS

TensorFlow Developer Certificate | Published paper in NeurIPS Workshop 2022
